

ISS's Ship Advisor's Breakfast Seminar

The inaugural ISS Ship Advisor's Breakfast Seminar—which took place on 6 November 2016—was a resounding success. Attendance numbered 80 and sponsorship included many of the most notable companies related to the category: Alley, Maass, Rogers and Lindsay; Cayman Registry; Döhle Yachts; Fairport Yacht Support; Fraser Yachts; Moore & Co; Yacht Logistics; and, Wright Maritime Group.

The attendees were presented with an update on regulatory matters in general, an update on the MLC and STCW (Manila) Amendments and an update on the Ballast Water Management Convention. Speakers included Richie Blake-Döhle Yachts, Andrew Dudzinski-MHG; Brian Luke-

Bluewater; Saagar Kadiyala and John Aune-Cayman Registry; and, Pete Southgate-Wright Maritime Group.

The Ship Advisor's Breakfast was created for senior vessel crew and owners' representatives with a view to providing solid practical guidance on how to tackle these forthcoming regulatory changes in a no nonsense 'nuts and bolts' way. Pete Southgate of Wright Maritime Group and Co-Chair of the ISS Technical Committee, remarked, "The depth of attendance illustrates the need for these informative sessions. This is an excellent showcase

for the work that ISS accomplishes 'behind-the-scenes' and the aim is to repeat similar technical seminars on a regular basis."
