

2018 Board of Directors Election

As an ISS member, a primary benefit is voting and the impact it has on the governance and initiative of the superyacht industry.

Each January, ISS membership votes for eight individuals to join the ISS Board of Directors for three-year tenures. The job of the Board is to sustain the Society, to prioritize initiatives, and to provide vision and strategic planning for actions undertaken each year for the good of the industry

Each year's ballot represents both end-of-term directors and nominees as submitted by members, another privilege membership affords.

As is always the case, the 2018 ballot includes the large yacht industry's most compelling people.

If you are not a member, join today! www.shop.superyachtsociety.org

You have until midnight 3 February 2018 to cast your vote.
